ACUVUE®
BRAND CONTACT LENSES
SEE WHAT COULD BE®

If you have astigmatism, there are contact lenses specifically for you:
ACUVUE® Brand Contact Lenses for ASTIGMATISM

If you have astigmatism,
you're not alone

You'll soon see the benefits

Nearly half of the population has some form of astigmatism,¹ but it's worth remembering that **not all contact lenses for astigmatism are the same.**

The good news is whether your astigmatism is combined with short or long-sightedness, there's probably an **ACUVUE® lens for you.**²

With unique ASD Technology that keeps your contact lenses in place however active your day may be, you'll enjoy **clear and sharp vision.**^{3,4}

Furthermore, all **ACUVUE® Contact Lenses for ASTIGMATISM** contain built-in moisture-retaining technology to leave **your eyes feeling comfortable throughout the day.**^{5,6}

Ask for your **FREE*** trial today and start enjoying the world in detail

Clear and sharp vision

Our unique ASD Technology ensures that however active your day may be, your vision stays crisp and clear.^{3,4}

POWERED BY

Lasting comfort from morning to night

Our cutting-edge technologies – HYDRACLEAR® Plus in ACUVUE® OASYS® for ASTIGMATISM and LACREON® in 1•DAY ACUVUE® MOIST® for ASTIGMATISM – are designed to help keep your eyes feeling moist and fresh right to the end of the day.^{5,6}

High UV blocking

ACUVUE® is the only major brand which blocks more than 98% of UVB and 85% of UVA rays as standard across the range.*

Convenience

Choose between two-weekly reusable lenses, or daily disposable lenses that you wear for a day and then throw away.

To find out more, ask your optician or visit acuvue.co.uk/astigmatism

* All ACUVUE® Brand Contact Lenses have UV Blocking to help provide protection against transmission of harmful UV radiation to the cornea and into the eye. UV absorbing contact lenses are NOT substitutes for protective UV absorbing eyewear such as UV absorbing goggles or sunglasses because they do not completely cover the eye and surrounding area. You should continue to use UV absorbing eyewear as directed by your eye care professional.
